## Education

### Seoul National University

Seoul, South Korea

B.S. STUDENT IN ELECTRICAL AND COMPUTER ENGINEERING

2015 - Present

- Current GPA: 4.07/4.3 (overall) 4.13/4.3 (major)

## Research Experience

### Virtual Machine and Optimization Lab

SNU, South Korea

SENIOR PROJECT

Dec 2019 - Jun 2020

- DNN offloading, Mobile Computing
- Worked with Professor Soo-Mook Moon on developing offloading schemes for mobile DNN inference.
- Proposed a novel distributed video DNN inference scheme that exploits intermittent online knowledge distillation.
- Implemented the scheme with PyTorch and OpenMPI with an NVIDIA Jetson Nano embedded board as the client.

### Computer Vision Lab

SNU, South Korea

RESEARCH INTERN

Jun 2019 - Dec 2019

- Meta-learning, Few-shot Classification
- Conducted research on better meta-initialization points for Model-Agnostic Meta-Learning (MAML) using an LSTM-based neural memory.
- Conducted research on generating task-aware class embeddings to augment feature maps of MAML by formulating a Disciplined Parametrized Program (DPP).

### Lab of Imaging Science and Technology

SNU, South Korea

RESEARCH INTERN

Jun 2019 - Aug 2019

- Quantitative Susceptibility Mapping (QSM), Deep Learning
- Worked with Professor Jongho Lee and submitted our solution to the QSM challenge held by the 5th International Workshop on MRI Phase Contrast and QSM.
- Designed, implemented, and trained a U-Net variant on in-vivo brain MRI field images and their COSMOS results.

## Extracurricular Activity

### Deepest

SNU, South Korea

MEMBER

Dec 2018 - Present

- A free research group on all domains of deep learning. Aggregates researchers from both academia and industry with various backgrounds.
- Studied and implemented extensively in computer vision and meta-learning, and attended talks on computer vision, natural language processing, reinforcement learning, and speech recognition.
- Gave a talk with the title "Meta-Learning plus Memory".

## Honors & Awards

Mar 2019 **Kwanjeong Undergraduate Scholarship**, Kwanjeong Educational Foundation

Seoul, South Korea

## Publications

- **ShadowTutor: Distibuted Partial Distillation for Mobile Video DNN Inference**, arXiv preprint (submitted to ICPP 2020)
